Welcome to the Photographic Society of America! You will receive your membership card soon. In the meantime, feel free to browse the PSA website, log in to MyPSA and take part in all of the activities and benefits of PSA membership. The best way to learn the ins and outs of PSA is to get involved and we look forward to helping you do just that!

Make sure to visit your Membership Area pages regularly. These pages provide information on activities and events in your area; and include information on your Area, State, Province or Country Membership Directors. Your Membership Director is available to help with any questions you might have about PSA or activities in your area. You will also find a listing of local PSA member clubs, councils and Chapters. You can find these pages on the PSA Website by clicking the Membership link, then choose either North America Membership Areas or Outside North America Membership Areas.

Individual members can login to MyPSA to view the individual membership benefits. Member clubs can login to the Club MyPSA section to view benefits and activities available to PSA member clubs. You will use your member ID and the password you set up when you joined PSA.

New individual members are invited to submit an image to the New Member Gallery on the PSA Website. This should be one of your photographs, and not a photograph of yourself. Please send this to Sharon Powers by email (webmaster@psa-photo.org). Your email should include the image title, your full name and your city, state/country. Member clubs are not permitted to submit to the New Member Gallery at this time.

We hope you enjoy your PSA membership and are able to take advantage of the many activities and services the Society has to offer. If you have any questions please contact PSA Membership Coordinator, Jimmie King (membership@psa-photo.org) for further assistance.

Donald E. Brown, Membership VP
Jimmie F. King, PSA Membership Coordinator
